

## Message from the Seraphim: The Time of Change

*Dear Children of Light, we rejoice to join you now at this time in your evolution to celebrate the acceleration of light unfolding in your earth realms at this time. Glorious these days of quantum leaps and most profound change, and yet a challenge, indeed, to you all on physical, emotional and mental levels, yeah even on the soul levels as well. We come, therefore, to address these one by one that the light of eternity shine its wisdom and love into your days.*

*On a physical level, you will experience again and again a feeling of great fatigue that is unique indeed. For energized you will feel all during the day in a trance like kind of way; however, in the eve and in the morn, you shall feel as if the rest is not sufficient but we decree that it is well and good so, rested you are but the continuing acceleration gives you a feeling*

*of not having truly come to rest. Rest and peace are truly different things and yet we say, should peace fill your body all of your days, then rested you shall also be.*

*Emotionally you are to be most vigilant for see, the changes in your heart vibrations shall often lead your emotional body away from the centre; unto this centre of 'feeling' return again and again to mesh and merge the influx of Divine Love through your heart with the emotional body, permeating it. Here the use of sound will again and again assist you in discovering the level of 'pressure' that Divine Love creates within the emotional body and through the emotional body into this world and to mankind. In doing so, you attain that level of peace of which we speak that is the foundation of the integration and synthesis of all the new levels of energy entering your fields.*

*Mentally, of course, you will notice well the change in your perceptions mostly in time but then logically in space. Time seems to leave you 'in the dust' with all the material demands of your reality. Simply acknowledge and witness, observe and come to appreciate this situation; letting yourself not react to it with frustration etc. but rather acting upon it again with the 'pressure' of Divine Love so that the Song of Creation may rise from your body, your heart and soul to flood your mind in the Here and Now with the glory of Creation so that you in joy, gratitude, appreciation and creativity remain throughout the time.*

*A level of your soul will indicate its need for consciousness and perhaps even its impatience to accomplish its highest goals at this time. This is the soul meshed with the third density aspect of your incarnation and therefore, it is imperative here*

**HARMONIC PORTAL 7~7~7**  
**FIRE THE GRID 17.7.07. (16.7.07)**  
**THIRD HARMONIC 25.7.07**  
**Full Moon July 30, 2007 (00:48 UT)**

*July is certainly an astonishing Month. It seems as if it is destined to be the month where everything changed. The harmonic portal of 7.7.7. was awesome in its energy and definitely a big preparation for the Canada Journey. The Fire the Grid of 17.7.07 (for me it was more 16.7.07 which is 7.7.7. but I honored Shelley Yates' message and tuned in this morning as did all others) was powerful in its joy and love. The next harmonic I feel is the 25.7.07. (2+5=7) which is the third harmonic this month and feels like the completion and beginning of something new: indeed many are arriving from Europe for the Canada journey that day, the meditation evening of the 26th will be devoted to the full moon of this month as well as the Canada Journey. This full moon in Aquarius is about sounding the depths of the soul, delving into the mysteries of old to bring them to light, exploring our purpose and multidimensional being. In many ways you can say it is the nature of the Canada Journey itself, in which 33 participants from Ireland, Spain, England, Wales, Germany, Switzerland and the Netherlands are taking part. The sweat lodge ceremony and drum making will occur in this full moon energy as will the presentation of the medicine bundles and the connection with Lord Michael in Banff. What a miraculous time I wish us all!*

message continued.....

*to rise into the highest frequencies of your soul and like a mother/father to a child, bend close to that part of your soul lovingly with wings of protection, patience, care and delight to nurture that part of you into stillness, calm, focused awareness and intent, as well as the ecstasy of the moment.*

*In such ways you may move through this time of profound change optimizing the opportunities given to you at this time. The adage of being loving, caring, compassionate, and filled with gratitude and appreciation and joy, is now being revealed as the true testing stone of the mettle of all beings. For others and yourselves who falter here, the greatest opportunity for unbelievable growth is given: respond to others and self here with the unlimited, unconditional care and love that is the true essence of any soul and all shall be aligned with the highest outcomes possible for all involved. Random acts of kindness at this time take on a whole new level of meaning and significance. If you have this clear intent and combine this with the most sincere intent, then the results possible at this time are far beyond the imagination of any of mankind.*

*Your challenge, as pioneers of*

*consciousness, at this time is again to take the time and seize the opportunity again and again, the more you can the better, to stop and detach from the frenetic and frenzied attempt to 'catch up with time' and experience yourself floating along with time as it is meant to be. That place of peace is not only healthy for all levels of your being but presents you with the opportunities to make the most significant growth at this time: without this place of peace, you will not be able to see these opportunities.*

*Rejoice in this time, for the gifts and opportunities, the creativity and joy is far far greater than any challenges that could possibly be found.*

*The Harmonic Portal of July 7th, 2007 affirmed all of the above, if you made the effort to attune to joy on this day. The portal of July 17th, 2007 will be marked again by this attunement to Joy as you 'fire the grid'. Sacred Journeys begun in the full moon of Aquarius shall enter into the true mysteries of life, therefore, and sound the depths of the soul for clarity on spiritual levels that has not be available before. As you then move into August you approach the portal of Mastery on Aug 6th. The month of August into the time of the*

*fall equinox seems to be held in the sway of Venus in her desire to awaken spiritual love in all of you at this time, also assisting in the processes that we have just described.*

*Thus, we also send you now a glittering jewel of light that will assist you as well during this journey of light, a seed sound and code that opens the realms of awareness that are unfolding now in your world, that you may move gently and peacefully upon this sweet Earth.*

*Gaze out into the realms of nature, lift your eyes to the mountains, observe the sea, delight in the flowers, and delight in me, the ever present light of Divinity shining in all Earthly things. I am there everywhere, a piece of my Being, watching and waiting, at your beck and call and command. I rejoice when you see me, feel me, call me, intend me, for then can I awaken from the long long sleep and shine again in your world. In all of the change, chaos and demands, I am still and waiting in all of these things. Discover me once, twice or even thrice and then will you find me within your own heart, for I have been there all along as innocence, purity, clarity, peace, sincerity, intention, the immaculate pattern of your soul's Love! Namaste!*

***After my work in Europe this spring, I spent two weeks with my life partner in Maui, Hawaii, tuning into the Earth energies and beginning the process of attunement to the Lemurian Sacred Journeys!***

*So here are some photos from top in clockwise direction: sunset at our beach in S. Kihei, a lava being that greeted me every day on the beach, plumeria~a sacred flower especially in Bali but also to me, a Hawaiian mom and her children in blessed communion with the ocean in lava rocks and pools, Iao Needle in State Valley Park that is so Lemurian in its feeling.*

## HAWAII CONTINUED

*Above in clockwise direction: a mango tree in front of our condo door provided fresh mangos every morning ~ yummy; an orchid lei that I placed on the ocean the last day in memory of my Mother who passed away this February 2007 and who never got to go to such beautiful places; a jacaranda tree in bloom on the way to Haleakala Volcano; and another sunset at our beach in South Kihei ~ every sunset was magical and breathtaking and we never missed one .... we would stop everything, take a drink and go to the beach to watch the great Apollo lay to rest; the landscape of Haleakala is moon-like and reminded me so very much of*

*the landscape of Tibet and has a lot of that sacred energy.....it marks such a great contract to the rainforest jungle of the other areas of the island such as the Ioa Needle; finally just having fun and pretending to be walking on Cloud Nine as I really felt that I was on cloud nine, in paradise and in such deep communion with nature. I swam with big sea turtles and saw amazing coral and fish. I bathed in the ocean every morning and was nurtured into wholeness through the great Mother in this way. I am in deep gratitude for this time and shall return this Christmas again to make the final attunements for the Hawaiian Journey 2008.*

## ***Whale Journey March 1-8, 2008 Hear the Call to Union with your Soul!***

**The Unity Codes are new communication sound codes that help create a reality that is peaceful, centered and fulfilled.**

### **COME TO THE DOMINICAN REPUBLIC -SILVER BANKS IN THE CARIBBEAN!**

Come join us in this extraordinary experience of swimming with the humpback whales. Here on Silver Banks, a reef 90 miles north of the Dominican Republic, is the only place in the world where you legally can have an in-the-water encounter with them. At this time of year, the humpbacks have come down from Greenland to have their babies...so we will have encounters with Moms and their babies along with their escorts, Singer whales and other groups of humpbacks. We will see rowdy adolescents, tail slapping and breaching. The experience is totally safe and well guided through the professional team of Conscious Breath Adventures. Jhadten will provide daily meditations 'under the stars' as well as before entering the water to attune you to the frequencies of these 'Melchizedeks of the Planet'. This year the whales will be transmitting the unity codes of sound creation from the Great Mystery of the Void. These sound codes from the whales enable us to co-create a new reality that is peaceful, centered and fulfilled in this time of transition, chaos and change. The experiences you have will leave you feeling joy, amazement, awe, humility, gratitude, and respect. They will make you laugh, and sometimes they will make you cry; they will always touch your spirit. A journey to the Silver Banks is an adventure that will awaken your consciousness and inspire your soul.

It is a life transforming event...so come prepared to be changed. Price includes journey from Puerto Plata to Silver banks, double room accommodations onboard, all wonderfully prepared gourmet food and snacks,

daily excursions in smaller boats to the whales (around 8 hrs each day-not obligatory but if you are there you won't want to miss a morning or evening). Snorkel, fins and wet suits (optional, not necessary but recommended mainly to stay warm out of water) are to be brought with you-not provided by tour. Airport pick-ups will be arranged once we receive registration and your flight info. Note: you do not have to be a good swimmer to take this trip...just be comfortable being in the water or willing to take the plunge. We don't swim as much as float near the whales... we never swim to the whales, they come to us. Many who are not fully comfortable in the water use floatation devices, which is absolutely fine.

**PRICE: \$3100 (US DOLLARS) [Deposit: US\$1500 (before Sept 1st, 2007) Full payment by Dec 1st 2007]**

Participants are required to make their own flight arrangements to Puerto Plata, Dominican Republic (airport code: POP) price includes \$150 government tax, tip for crew (\$250) and cost of transfers to and from the boat either to airport or local hotels (\$50) as well as the \$100 fuel surcharge per person. Book early to reserve your space on this wondrous adventure.

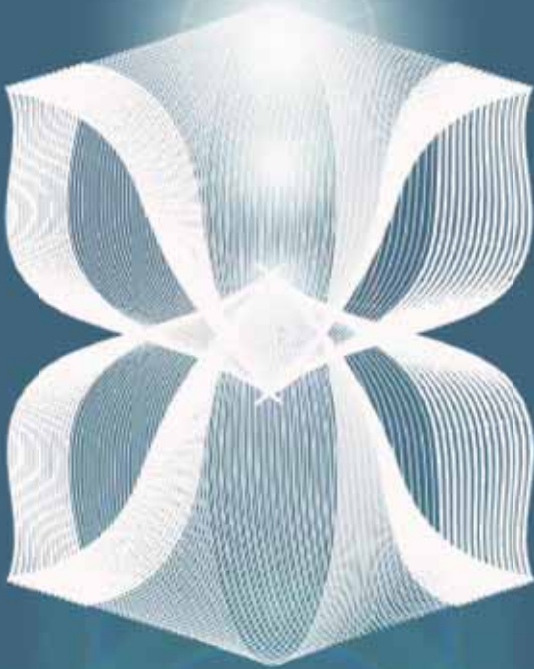

Initial deposit US\$1500 (non-refundable) through Sacred Spaces 604-733-3473 or use the payment option in the website shop or email Jhadten for information on other ways to pay. Due to our group rate we are actually paying less than the normal booking rate.

You can also email Jhadten to enquire about booking a hotel before and after the journey in Puerto Plata as most of the participants choose to spend a few days before and after the journey at a resort; Jhadten also does meditations prior to and after the Silver Banks journey at the resort to help integrate the energies of the journey (again optional but fun if you can do them). I also encourage you to visit the Conscious Breath Adventures website at <http://www.consciousbreathadventures.com> to read more about this incredible experience in the Caribbean. Please register online, email me, write or fax me.

# *New CDs to be released this Fall* **AMAZING!**

## Sounds of Light

The sequel to Sound of Creation this CD reflects the level of sound awareness and sound healing, sound initiation and sound acceleration that was experienced on the Sacred Journey to Australia in 2003. The various themes and energies of the six tracks of the CD reflect the codes used to open a new Dreamtime on Mother Earth in the heart of the Dreamtime, Purnululu National Park in Western Australia. The music was composed by the brilliant Hans Timmerman and he excels in his magical alchemy of editing as well.

## ***Meditation for the Gateway of Mastery: Aug 6, 2007***

*On Aug 6, 2007 Jupiter in Sagittarius goes direct (and it will not go direct in Sagittarius for another 12 years) a sense of freedom and clarity of purpose will permeate those who attune to this day. It is interesting that we will have finished ceremonies with Spiderwoman and are integrating her gifts on this day. The Seraphim angels have suggested the following meditation for this day. Enjoy! This meditation will be available online.*

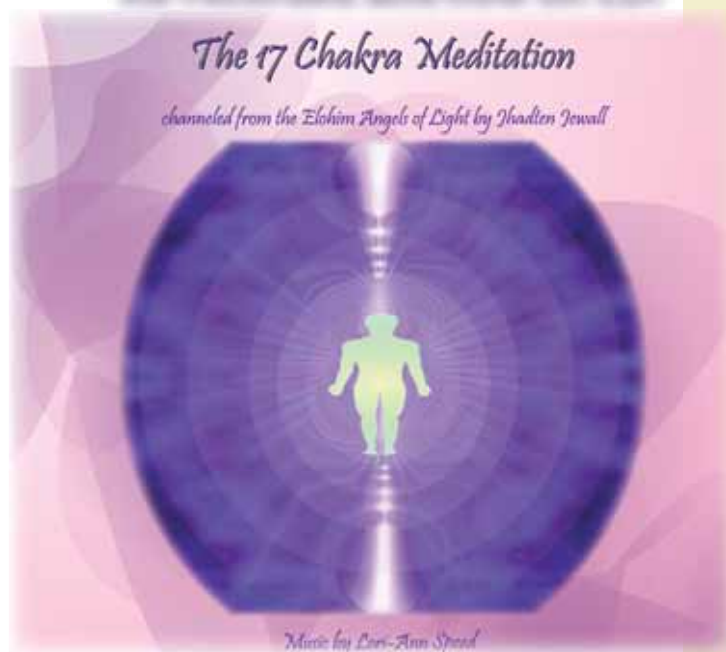

**(play some soothing music and record this or have some one read it)**

**Take a deep breath, close your eyes and relax and sigh on the exhale. Another deep breath and sigh on the exhale letting go of all the energy of the day and recent past, returning to a clear awareness of your own energy field. The third deep breath and sigh is of Divine Love being breathed in through you and into the Earth on the exhale.**

**Visualize yourself coming to the top of a very green mountain that is not very high but has a beautiful view of a valley and a river running through it ...in the distance you can see the ocean glittering in the late afternoon sunlight. As you sit on a bench here to enjoy the view of the emerald valley and bright blue river and sparkling sea, you suddenly feel in your heart the desire to merge completely with your soul in this place of appreciation and beauty. No sooner have you set this intent than a beautiful golden ball forms above you and begins to descend towards you and as it does, waves of liquid golden honey energy pour over you like waves of Divine Love and these waves seem to be carrying a message with them: "Oh Child of Light I come unto you now to radiate my love into your heart, that peace may reign, ....into your body, that fulfillment be yours, ....into your mind, that enlightenment and clarity shine forth from your mind as it does from the Mind of God/dess. Breathe into these waves of**

**Love therefore and as you exhale these waves into the Earth from your mind, your heart and your body, not only do you realize that you are BEING the rainbow bridge between Heaven and Earth very consciously...but also you begin to realize that as this energy/love is being transmitted through you to the Earth, the Earth and all Her Realms are being blessed and consecrated with a vibration of a higher reality.....you begin to realize that your body is being consecrated and initiated into this higher reality and as it is, powerful waves of silvery gold are rising from the depths of your physical being ~ as if the Earth were responding to you through Her Realms and through the deepest part of your physical being ~ and these powerful silvery golden waves are infusing your heart with great happiness and contentment, joy and ecstasy... it is infusing your mind with a lightness, freedom, ease, grace and beneficence. Rest in this radiant state for a while..... one now with the power and majesty of your soul.....Namaste.**
