

Message from the Elohim about the first experiences of the Golden Rainbow

Channeled by Jhadten Jewall on the vernal equinox of 2008

Greetings, oh Pioneers of Consciousness, that you are! We are the Elohim, the 24 Nameless Ones, and come to you today to speak of that which is unfolding in your realms today. The increasing flow of light from Galactic Centre is beginning to allow the blossoming of Rainbows, golden and bright, in your awareness, that to a great extent, represent opportunities for evolution unprecedented in your realms. As you, at this time, enter the silence and attune to this flow, invoking the highest frequencies of your soul, we surround you with our wings of light, and allow you to feel the immense potential of light that you are at this time on the Earth planes. Nature opens freely to this influx of light and can reflect this back to you, if you but open your heart and awareness to feel and perceive the miracle unfolding here. As in the silence you attune to the eternal IAm Presence in you, beyond

all thought, emotions and physicality, as the pure Consciousness of Creation expanding now in thee, you may then move into the awareness of Nature all around, the budding blossoms now abound in this new potential indeed. As you breathe your awareness into a merging with this 'blossoming' in nature, you may verily sense the profound awakening that is occurring here. Releasing for a moment all thought and simply 'being' one with the Earth realms will allow you to glimpse this infinite potential of the 'Now'.

At this time in your incarnation, to remain as long as you can in this presence, to be alert and vigilant in holding this vibration, is perhaps the greatest achievement that you at this time can accomplish here. Miraculously, you shall begin to see, how your reality begins to shift and change, how precious each moment, how deep each experience, how deep your appreciation and gratitude can be. It is becoming one with this new and glorious flow of light and Life from the Source of all Sources, that will

allow you to feel yourself one with us, with angelic realms and the wisdom that flows from the highest realms and frequencies of your soul. It is a wisdom, that is not thought alone, but rather a 'knowing' that is one with attention, compassion, care, concern, that is viewing, observing, seeing, acknowledging the situation here, accepting it in all of its entirety, allowing it to be as it is and blessing it with the intent focus and placing of attention upon it, without thought, judgement, partiality or need. Imagine God/dess experiencing through you the immensity and brilliance of Creation here.

Far from the limitations, lack, neediness, confines and cares of this density, you realize that you are a window into this reality and one that indeed can shape and change and affect this reality, if you from this higher place and consciousness can allow, the peace, love, joy, delight, enthusiasm, life and awareness to flow into this reality through the window that you are.

incarnation to be, to allow it, to bless it, to not judge it or identify with it now, but rather now identify with this greater awareness and consciousness that you are. So you lift your reality into the powerful opportunity at hand. The music of Creation wishes to sing through thee, but finds again and again no room in the many thoughts, feelings, needs and concerns of your personality. Make space for this Song of your Soul and see, how all of your dreams may come true with great speed. Discover the peace and serenity that is at the centre of this place of awareness and believe us when we say, that from there a great joy and fulfillment, a delight and enthusiasm, a new adventure is being birthed for thee.

A flower simple, fleeting and bright, can open your awareness to this sacred inner light, as it did in the days of Lemuria and beyond. It touched the Heart of Buddha. It birthed the rose of Christ. So too now it will allow the sacred new Light of Unity Consciousness to shine, for it is here, in this awareness space that we describe, that this new consciousness is being birthed on your planes at this time. You, who delight in being the pioneers of consciousness in your realms, will know more than others of the opportunity here. As you in this way transform your Life, you model unto the world, the nations, the colors, the creeds, the simple Truth of Being One with Who you Truly Are! Namaste!

Some wonderful shots taken by Gene our captain on the whale journey this year: above a whale breaching very near our boat, below a baby on its mother's nose, at 9, 1 and 3 o'clock the antics of a baby whale as he plays in the water in front of us, so sweet and powerful too!

The Lemurian Mystery School Teachings

*Channeled from the Elohim by Jhadten Jewall to assist in the Great Shift of Earth
At the beginning of the 21st Century*

What is a Mystery School?

A 'mystery school' is a place or teaching, that assists and supports a human being in an incarnation to learn about the soul and provide opportunities to experience healing and higher states of awareness; this in order to achieve full body enlightenment. The objective of this teaching or goal is to transcend the illusions of limitation on the physical plane and to live in alignment with the higher truths of the soul and one's true Self, with God/dess, with All That Is. The experiences and teachings can be revealing and challenging depending on the identification of the person with their personality as well as the illusion of reality, and their level of awareness of their soul energy. As such the person moves through different levels of initiation that assist in expanding consciousness into the awareness of one's true Self.

There are many kinds of mystery schools using different techniques and methods. So what characterizes the 'Lemurian Mystery School Teachings'?

What is Lemurian?

*"Lemurian" refers to the quality of information that was possible during the age of Lemuria. This information has been stored in our soul memory and in Lemurian Seed Crystals. **

According to various esoteric sources, the first civilization arose 78,000 years ago on the giant continent known as Mu or Lemuria and lasted for an astonishing 52,000 years. It is sometimes said to have been destroyed in earthquakes generated by a pole shift which occurred some 26,000 years ago, or at approximately 24,000 B.C. Most sources claim Lemurians were much like modern humans, living in an idyllic paradise, largely agrarian with lush forests and an abundance of flowers and fruit trees. Feminine principles of sharing, cooperation, and creativity produced a society virtually free of crime, strife, and warfare. Lemurians were vegetarians and lived in harmony with nature and other creatures, and they had a highly developed psychic and telepathic senses, which were applied in practical endeavors such as horticulture. People believed in 'mind over matter' and were adept at manifestation and other 'reality creating' techniques. This tradition survives, some claim, in the Polynesian concept of mana and various fire-walking ceremonies throughout the region. The Hawaiian Hula and Kahuna teachings are indicative of this consciousness.

Channeled from the Elohim, the mystery school teachings of Lemuria aim at assisting mankind at this time in their evolution to develop a new and more powerful connection to their soul, to embody their soul energy to such an extent that illumined Christed consciousness be possible on the Earth at this time, in order to usher in a new age of peace. The workshop consists of indepth materials, initiations and exercises that guide the consciousness of the participant through various levels of awareness to take steps along this initiatory route to fulfillment. As always, Jhadten conducts this workshop with joy and ease as well as invaluable experiences of light.

** (These are naturally etched Lemurian seed quartz crystals. The Lemurian crystal can be recognized by the bar-code type striations located upon the shaft which are said to contain implanted information. Legend says that Lemuria was a highly developed spiritual society in the area that is now Brazil. During the last days of their civilization the Lemurians decided to plant seed crystals programmed to transmit a message of oneness. Sit quietly while gently rubbing the striations and you may be able to unlock their ancient secrets. Clear quartz has been used quite extensively by the inhabitants of Atlantis and Lemuria, by the Native American Indians, the African tribal systems, the ancient Egyptian culture, the Mayans and Aztecs, the Australian Aborigines, the Romans, Scots, Celts, Tibetan Buddhists, Brahmans and many others during the days of the "old ways". It has been used by these cultures in diagnostic healing, in raising the consciousness toward the enlightened state, in communicating with the spirits and for religious purposes since ancient times. from Love is In the Earth by Melody)*

This workshop is being presented in Belgium, England, Munich, Dubai, Hamburg, Zurich and Dublin this spring. It is a great preparation for the first of the Lemurian Trilogy Journeys to Hawaii in November 2008. If you are interested in organizing this workshop in your area, just contact Jhadten at 604 733 3473.

Above the baby on its mother's nose and the 3rd down on the right as well, upper right mom and baby, 2nd down right elegant mom, the bottom right gives you an idea of proportion as you can see the whale and our captain or marine biologist video recording (he is holding a yellow underwater video camera), below our group in the water as whale swims by, next under boat tips a bit as we all look down into the sea to see the whale.

**Whale Journey Feb
14~21, 2009
Hear the Call to
Awakening the Divine
Seed within!**

**COME TO THE DOMINICAN REPUBLIC -SILVER
BANKS IN THE CARIBBEAN!**

Come join us in this extraordinary experience of swimming with the humpback whales. Here on Silver Banks, a reef 90 miles north of the Dominican Republic, is the only place in the world where you legally can have an in-the-water encounter with them. At this time of year, the humpbacks have come down from Greenland to have their babies...so we will have encounters with Moms and their babies along with their escorts, Singer whales and other groups of humpbacks. We will see rowdy adolescents, tail slapping and breaching. The experience is totally safe and well guided through the professional team of Conscious Breath Adventures. Jhadten will provide daily meditations 'under the stars' as well as before entering the water to attune you to the frequencies of these 'Melchizedeks of the Planet'. In 2009 the whales will be transmitting the purest sound codes of the Soul's Records from the Akasha. These sound codes from the whales enable us to experience a new reality that is peaceful, centered and fulfilled in this time of transition, chaos and change. The experiences you have will leave you feeling joy, amazement, awe, humility, gratitude, and respect. They will make you laugh, and sometimes they will make you cry; they will always touch your spirit. A journey to the Silver Banks is an adventure that will awaken your consciousness and inspire your soul.

It is a life transforming event...so come prepared to be changed. Price includes journey from Puerto Plata to Silver banks, double room accommodations on board, all wonderfully prepared gourmet food and snacks, daily excursions in smaller boats to the whales (around 8 hrs each day-not obligatory but if you are there you won't want to miss a morning or evening). Snorkel, fins and wet suits (optional, not necessary but recommended mainly to stay warm out of water) are to be brought with you-not provided by tour. Airport pick-ups will be arranged once we receive registration and your flight info. Note: you do not have to be a good swimmer to take this trip...just be comfortable being in the water or willing to take the plunge. We don't swim as much as float near the whales...we never swim to the whales, they come to us. Many who are not fully comfortable in the water use floatation devices, which is absolutely fine.

PRICE: \$3250 (US DOLLARS) [Deposit: US\$1500 (Full payment by Dec 1st 2008)]

Participants are required to make their own flight arrangements to Puerto Plata, Dominican Republic (airport code: POP) price includes \$150 government tax, tip for crew (\$250) and cost of transfers to and from the boat either to airport or local hotels (\$50) as well as the \$100 fuel surcharge per person. Book early to reserve your space on this wondrous adventure. Initial deposit US\$1500 (non-refundable) through Sacred Spaces 604-733-3473 or use the payment option in the website shop or email Jhadten for information on other ways to pay. Due to our group rate we are actually paying less than the normal booking rate.

You can also email Jhadten to enquire about booking a hotel before and after the journey in Puerto Plata as most of the participants choose to spend a few days before and after the journey at a resort; Jhadten also does meditations prior to and after the Silver Banks journey at the resort to help integrate the energies of the journey (again optional but fun if you can do them). I also encourage you to visit the Conscious Breath Adventures website at <http://www.consciousbreathadventures.com> to read more about this incredible experience in the Caribbean. Please register online, email me, write or fax me.

*Integration Message from Lady Nada after
the whale journey in 2008*

**Post Whale Journey Message from Lady Nada
Channeled by Jhadten Jewall on 16 March 2008**

*Greetings, oh Beloved Ones of the Primordial Oceans of Creation, for indeed, I am Lady Nada and on the wings of Melchizedek's Love I come unto thee this day! Great and wondrous and rare the gift you have now received, for I, the Keeper of Unity's Codes and Keys, do know and esteem the value of that gift! The portals of Creation have opened in this year of infinite possibilities and golden rainbows of new hope, so that a specific vibration of light could flow unto the realms of the sea where the great ones, the Melchizedek's of your planet - the whales- could weave this new 'tone' into the fabric of your vibrational reality - a bridge of light that, new and unique, may prove to be the single most important code at this time. This new code, or new frequency of 'unifying Love', builds as such a new foundation for an emerging reality in your realms, thus your 'encounters' and 'encodings' with four Singer Whales. They not only sung a new 'version' of their Song Eternal but also emitted in this song a new 'frequency' or vibrational sound pattern that equates to this new unifying love frequency. Not only this, for in the 'mother/calf encounters' the calves initiated you with the 'crystalline energies' of the future as the Mothers anchored this new 'pearl' (frequency of unifying love) within your bodies, all the while aware now of the power of the 'whale song' creating the golden tube Taurus of the Father's protecting and caring 'unifying love' to consolidate the pearl! *This occurs at the commencement of this year of infinite possibilities of unity and new creations. Manifestations of the soul's desire and longing can only be attained now from a place of unity consciousness; hence, in receiving the codes of unity consciousness, you have received the possibility of co-creating in new ways. The potential of this year is thus given in this 'seed of awareness' you have been gifted with from the higher planes through the Melchizedeks of your planet, the whales. On the full moon of the spring equinox of this year you will feel the effects of this 'seed' opening your heart chakra even more, indeed, we would say, to its full potential at this time, should you so choose this. The full moon of April will provide the vibrational conditions for this new 'love' to access new dimensions of vision, guidance, wisdom and empowerment through the soul energy flow. The full moon in May will finally bring this 'unifying love' into the throat, so that creating from the place of unity consciousness through sound frequencies may finally be realized.*

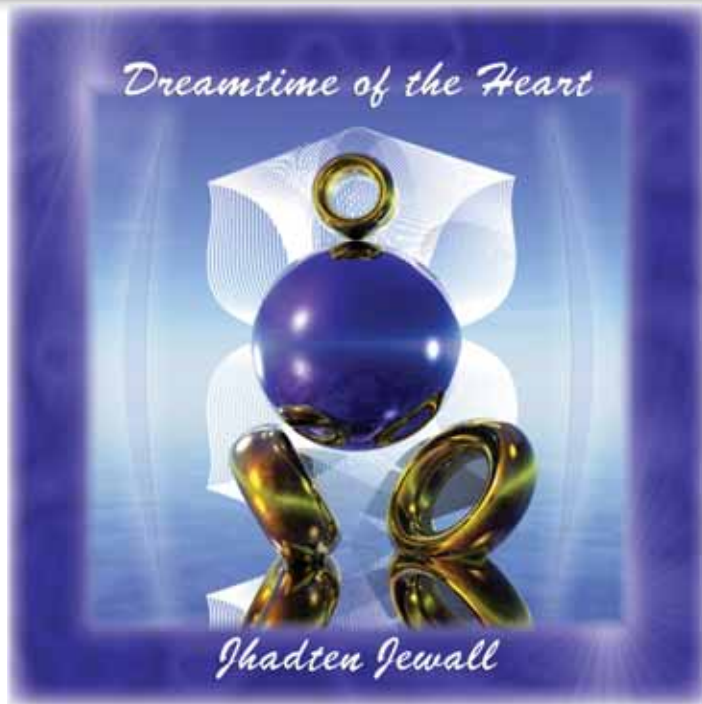

My message is to support your integration of these energies through the following experience:

*Bring fully into your present consciousness now the 'vibrational condition' of the group of participants on the whale journey including boat crew, guides, and souls who supported the participants on this journey. ** Now connect from this place to the unified field of the humpback whales. Notice how you can also feel the unified webs of the other whale species here. Now expand this group experience to include all of humanity. Simply experience this for a few moments, being in the unified field, as a state of consciousness. Now send the clear intent and command to your soul essence from this place, to send forth the manifesting vibrations of its being through you in this incarnation and to manifest in your life the conditions and circumstances that will enhance your awareness of this new field of energy to the optimal potential at this time. Imagine/visualize golden energies streaming forth from the Heart of Father/Mother/God/dess, All That Is, where you are One with Source, and filling your world with its precious light and awareness. Repeat this as often as possible and truly miracles may now unfold in your incarnation.*

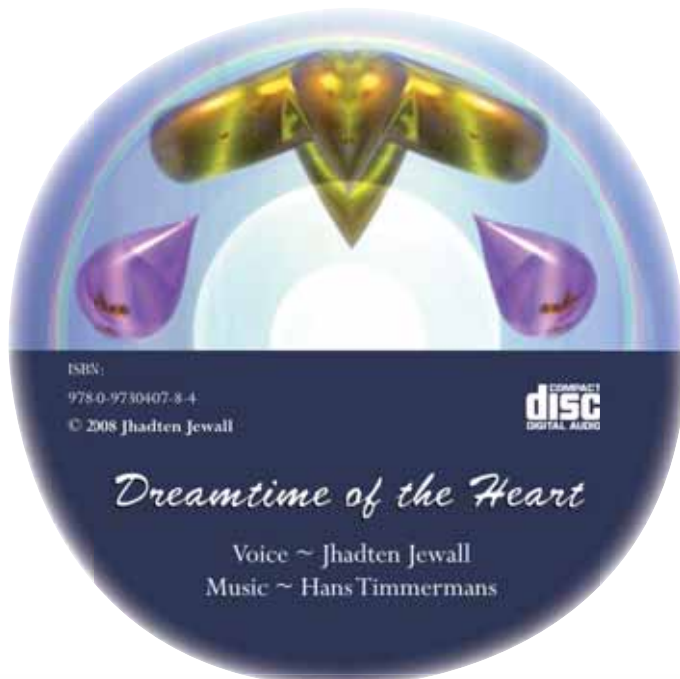

*With the Wings of the Elohim, Elim and Ishim surrounding you with their tenderness, We leave you now in the Radiance of your own Divinity!
Namaste!*

**(This also reflected in the sperm whale birth video that Gene showed the group during this journey.)*

*** (Everyone can call upon this vibrational hologram through their soul's intentionality as this hologram now exists on the etheric planes of this world)*

The sequel to Sound of Creation this CD was inspired by the Sacred Journey to Australia and the Sound codes that were received there as a new Dreamtime was opened for Mother Earth in 2002. The music for this CD as well as the editing was again done by the talented and amazing artist Hans Timmermans in Holland who can always bring richness and depth to the tonings of Jhadten. Report on the Whale Journey 2008

Whale Journey Mar 1~8, 2008

The journey was a huge success. We made it to Silver Banks travelling in the wee hours of Sunday morning and arriving and getting set up at Silver Banks around noon.

Our Captains had the group get into the water and use their equipment to see what everyone's level of comfort in the water was. In the afternoon, we went off in search of whales and had lots of sightings and a few in water short encounters.

Monday, however, saw us getting into some beautiful mother/calf encounters. There is nothing like entering (with snorkel and mask) the quiet sacred world of the ocean and to encounter the loving mother, monumentally huge, with her calf (smaller but still huge) in their slow motion graceful dance of tenderness. Floating above the mother, with her calf under her chin or body, we enter into the sacred aura of these beings, for their aura is huge. Floating in the silence and 'total presence' of the whale beings, you enter immediately into an altered state of consciousness where the 'sacredness' of the whales makes you fully aware in an experiential way of your own 'sacredness', your own 'divinity', your own greatest 'Self'. As calf and then calf and mother approach you to look into your eyes, you receive the final overwhelming confirmation of 'the truth of your being, the truth of life, the truth of eternity.' For a few short minutes (that however feel like eternity) your rational thinking mind is 'absent' and you are fully present in the experience of the miracle of creation that is unfolding in that very exact moment, the

Eternal Now. This silence is more pregnant than any other silence I have ever known. Tuesday was mind-blowing because we had in water encounters with singer whales in the morning and in the afternoon. In this realm of 'pregnant silence' to be inundated with the sacred sound of the 'singer whale', is to be inundated with the Song of Light, the Song of Life, the Song of Eternity, the Song of Creation, the Sound of Unity, where we are all One. Here truly the intellect is at rest as you experience the power of being initiated into the 'sound codes of creation', in this case 'the creation of unity consciousness codes' that in turn are the new codes of 'manifesting a reality based on wholeness and unity.' Wednesday continued to amaze us because we encountered yet another singer whale as well as having some beautiful mother/calf encounters with two whales that were shared with us from other boats on the reef. When a group of 10 from one boat have had an encounter with a whale who remains and is comfortable and interested in meeting us humans, then that boat may invite others to experience the beauty of that group of whales too, as everyone knows how rare and precious it is. In this way, the unity consciousness of the whales is transmitted to us collectively in a very natural and yet profoundly tender way. There are no words for us to express the miracle of having been initiated by the

same whales for it creates a space of unity that we as humans have not known since our journey from Source. A bond between us remains and that bond creates a vibrational reality of the bond for everyone on the Earth (indeed, a 100th monkey effect). This would happen again and again and most importantly on the last days, our group that was always divided into two boats (Trini and Bago) and going off to have different encounters, finally experienced a sharing of the same mother/calf encounter with a mother and calf that were intent upon 'bringing the codes home in the most effective ways possible' (meaning they came as close as whalely possible to us). The various encounters consolidated and brought to each participant exactly what they needed and the 'common' encounters provided the group with the powerful fuel of a strong unity consciousness matrix. After these 'common encounters' we truly resided in the sea of unity and oneness. Thursday was brilliant as we had a short encounter with some whales 'dancing' and one even seem to hold our videographer (Jeff) between his pecs at one

point; Jeff, who has devoted his life to protecting and honoring the whales, more than another other surely deserved this amazing sign of affection from this 'dancer'; another singer whale encounter brought the total to four singer whales on one trip (it is usual to have encounters with one or two singer whales in a ten week season). In the afternoon, we also had a short encounter with a very friendly mother and calf, of which the mother was the largest humpback whale I have ever seen and I have seen a lot. Again, her ancientness seem to make the codes she transmitted (in the middle of a very powerful rain squall I must add) even more sacred and

profound. So the trip was blessed with singers, dancers and mom's with calves, highlighting the aspect of unity consciousness and the power of sacred sound. We received the most powerful sound codes on this journey than all other 8 journeys that I have done at Silver Banks. For that I am extremely grateful. The boat, the crew, Conscious Breath Adventures were all brilliant and made our journey easy and special. In many ways, everything conspired to create that place of 'silence' where the truth of higher realms could shine so brilliantly through, like the sunrises, sunsets and rainbows during our time on Silver Banks. Always remembering that Silver Banks is the Gateway into the Akashic Records of Mother Earth that are stored in the crystalline structures of South American in their most potent form. Our evening meditations under the stars on the top deck always seem to end with long silences with us all gazing into the starry heavens and being initiated into the powerful silence of the universe, where again the presence of our Souls could shine through clearly. May our days in this year be blessed with that vast silence in the total awareness of the magic of the present moment at all times! Namaste.
