

Message from the Seraphim

We, the Seraphim, Angels of Light and Creative Force, flow to you now on the Breath of God to surround you with our beauty and love as we transmit the message of Love and Hope that we bring to you at this time. As you entered the realms of 2007 in your time reckoning on the Winter Solstice in December 2006, our energies were already flowing into your realms. The Chasmalim have anchored new codes of balance and harmony in your realms and many of you have felt the benefit of these codes, though the adjustment to this level of balance was challenging indeed. From this balance now, we emerge as the dynamic creative force that is generated by this balance of male and female, body and soul. This creative force is like the breath of God, it is the Light of Truth, Integrity, Hope, Purity and Innocence. In many ways, it is likened unto the energy of the Divine Child within. As we emanate these frequencies now

into your galaxy, focused upon the energies of Mother Earth at this time, we feel the blessings of the Heavens increase one thousand-fold.

As you now align with this energy, you will feel first its purity which shall flow through you like a cleansing fire. From this fire then the innocence of your soul is anchored into the physical realms and you feel the integrity of that energy. In delving deeper into this 'field of integrity' Hope is born for a knowingness inside of you sings that from the integrity within, integrity and wholeness without can be manifested. Wise you are then to hold this frequency and to rest within its flowing field of Truth. For as you do, it is as if you are coming face to face with your soul and understanding now, with greater clarity, the purpose of your being here on Earth. For indeed, your greatest purpose is to be in all your wholeness and joy in this incarnation. All that you have

transformed, has allowed you to be this wholeness and joy here now. As the power of your soul shines through this incarnation and its 'physical filter of the personality', you understand the choices that you have made in taking on this particular form. You begin to see and feel how perfect each and every aspect of your personality is and how brilliantly balanced the gifts, talents and abilities that you possess as well as the unlimited potential for more that is opening to you now.

For indeed, this light begins to show you that you into limited form were born, have experienced the limited state in order to transform it and set yourself free from these limitations; hence you are beginning now to see and feel and know the unlimited possibilities that you soul has to transform the limitations of the physical form and open you to new gifts, talents, abilities and manifestations of all kinds.

The Musical Tip for 2007

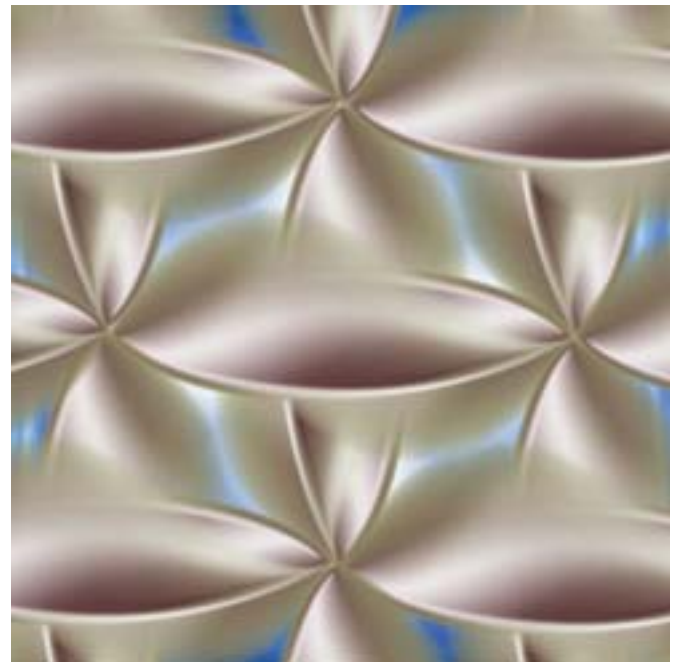

Denise Hagan

"For those who hear"

When I was in Ireland in the fall of 2006, I met a wonderful lady from Belfast who was guided by Yeshua to leave her job and to sing songs

that he would give her. She is beautiful and angelic, has indeed the voice of an angel. Never before have I heard a music that continues to play in my mind and body throughout the night, so that I would sometimes awaken in the night to hear these songs being sung inside me, especially the last song on her CD, "The I AM meditation". For me this is the song of 2007 and I love it and sing it all the time. It reminds me to be in the presence. Her other songs are all beautiful and very moving so I highly recommend the CD. message continued.....

Rejoice, oh Children of Light, for now is the time to receive. Enter into our glorious rays to receive even more Love than before. Feel our Light pour down through you and into the Earth and radiate through your heart to the hearts of every man, woman and child upon the Earth at this time. Open to receive this flow and consecrate the world around with this Love and Light frequency.

For our light also brings understanding to your own evolutionary process, not only in this incarnation but in the many incarnations that you have had upon this Earth. It also illumines the evolutionary process of Mother Earth and Humanity. Thus, it is well named as the great year of Truth and Revelation.

Verily, the time is drawing near and during this year you will have great time to ponder this, for we shall be calling forth through you a new ark appropriate to the coming time of paradise, for within this ark shall be given the Divine Inspiration, the Breath of God, that shall ensure the readaption of all life upon this Earth in a new dimension of light. As we move through the Children of God/Goddess who are ready to be the channels of this energy, you shall experience all of what we have spoken of on an individual basis, through you we shall also bless and consecrate the world,

infusing the power of Divine Love into the crystalline frequencies of reality through your hearts. In this way, we shall continue to work and in doing so, with your willingness and obedience to this higher frequency of your soul, shall then cocreate with you this new proper 'ark' to anchor the patterns of a new world into this reality.

As with all transmissions of Light at this time, feel above all the unifying grace of this light; for as unity consciousness emerges in your awareness, the sounds of creation shall rise within you. As you sound them, transmitting our love and light into this world, be aware that patterns of light are being anchored in this way through you according to the Dream of the Great Goddess and the Divine Plan of the Great Father.

We gather especially the quartz of the very clearest sort to surround you, danburite to support your voice during this time, clear kunzite to bless your heart and selenite to align your crown with our vibration of Light and Love. For the vibration that we send into the Earth at this time is aligned with the Breath of God, the creative force of Creation itself. The Goddess has given form and texture to this breath through the elementals and star energies combined in these crystalline beings such as danburite. So we direct your hearts as well to

the Light of Pegasus and the North Star Polaris and the gateway of Alpha Centauri in this year. In aligning with these star energies your physical being will resonate with the flow of the Breath of the Command.

This is the year when the Lightworkers of Canada shall illumine the grids of consciousness in this world with a loving vibration of peace and hope for all of mankind. Lord Michael in his sacred retreat of Banff is renewing the blueprints of creation there, that since the Conclave of Michael in 1994 have anchored the flow of the transition into a new consciousness on Mother Earth. Be you near or afar, direct your hearts to this sacred place in the Rocky Mountains and you shall attune to the renewal of your blueprints in wondrous ways, that weave the form of the Goddess with the creative impulse of the New Cosmic Father in new and unique ways. Your 'ark' that shall be lifted into the starry realms of heaven in this renewal shall be transformed and strengthened in this crucible of Love. We the Seraphim, Angels of Fire, Light and Love, spread our firey wings of Light around you and gently whisper the transforming Love into your Hearts that all may unfold with integrity, beauty, purity, truth and love in this acceleration of your frequencies to the Glory of your souls! Namaste!

Message for the Canada Journey July 27 to Aug 13, 2007

channeled by Jhadten Jewall December 2006

Greetings in the Light and Love of the Most Radiant Ones, for we are the Seraphim Angels of Fire, Light and Love, flowing in ever increasing waves of love to your planet at this time. God/Goddess bless now through the alignment with galactic core this Earth plane with our frequency. As our energies increase in these moons of your reckoning (2007) and reach their zenith on the summer solstice through the solar light, and then begins an unfolding of our energies that truly commence on the Day out of Time (July 25th). So we invite many of you to journey unto the land of the maple leaf, for it is there that our efforts are concentrated at this time, guiding the energies unfolding through the temples of revelation unto this world. On the full moon (July 30) all things shall be washed away so that you step through the veil to be again with Mother Earth in a new and sacred way. The medicines shall be prepared in the earth and on the land, so that your souls may join your body, heart and mind in a new relationship as well, that is beyond sublime. As our light washes away all limitation and confine, the light of your soul shall shine in its truth, integrity and innocence. So then the medicine that you receive shall join you through portals of light that resound with stellar gateways in the heavens as well as upon the ground. In this fusion of energies, alchemical ways of journeying into the realms of spirit shall be unveiled.

In your realms we delight in quartz crystal for its vibration is so similar to ours. Hence, we prepare a 'life crystal' for you that can carry the vibrations of your medicine at all times in its pristine and most beautiful form. As you unravel your medicine bundle and delve into the gifts of each medicine, you shall be infusing the life crystal with the essence of this medicine as well as the portals of Earth and Heaven that abound with this medicine. On your journey though the sacred area of the Pacific Northwest and the Rocky Mountains, the Earth realms shall support and align with starry realms to focus the merging point in your medicine where the truth of your soul resides. All Earth beings and elementals, all heavenly realms and star beings surround you in this endeavor to support you in coming face to face with your soul. In the simplicity of the interaction with nature and the heavens, a great opportunity for us to assist you is thus given.

The unfolding of the journey shall begin 42 days before your arrival in Vancouver and shall continue for 88 days after your departure from Vancouver. Though, indeed, the effects of this journey, its preparation and integration, may span a greater time segment, we wish only to impress upon you the focal point of our energies in fulfilling the promise of this journey. Of course, we are there at your bidding whenever you choose to call upon us, we are always delighted to be involved in the unfolding of your consciousness in this incarnation as well. As

Cassiopeia and the Great Bear align with the North Star Polaris in between, a portal, a gateway of light shall open that shall light your path on this journey we see. Be aware of this for during this time, this Light shall illumine the questions of relationships within so that all relationships are reassessed and appreciated in new ways, and this Light shall call forth all your beliefs for review that you may affirm for each belief that for you it is true and reestablish a new foundation within, so that the majesty of your soul may shine forth in integrity at this time.

Many are the landscapes and medicines, many are the starry transmissions and revelations of the Great Mother on this journey, so that the unfolding of your incarnation is reflected in the unfolding of this adventure into the vibratory realms of your soul essence. Be aware that this is like a journey to within, discovering landscapes of your body, energy systems, and meshing with the soul. It is also in the nature of the medicines and the sites that we will visit, that talents and abilities will be awakened and developed; it is then up to you through the work with the medicines and the life crystal to develop these talents and abilities into their greatest

potential, by using focus and discipline to hone them to their maximum potential. We the Seraphim, are again, always there to guide, assist and support you in this process. It is a paradox, that through this discipline and focus you would discover the joy and passion of your soul as the medicines unfold.

We are joined by the Elim and Ophanim on this journey to enhance the process through the work with sound and movement, anchoring through all avenues of these mediums

the vibratory frequencies of clarity, integrity, peace and wholeness into the crystalline structures of the world and your bodies. As this process unfolds, the work with movement and sound will but enhance the development of the medicines and the infusion of the life crystal with the necessary information from your Akashic Records and the Emerald Tablets of Thoth. It is in the nature of North America to be the portal through which the new frequencies enter this world, are developed and transmitted to all nations and civilizations. The portals of Unity Consciousness and New Creations have been for this journey well prepared. We wish you the most fulfilling of all times and rest with our wings around you always. Namaste in the light of the Most Radiant Ones!

Meditation to connect with the Seraphim Angels of Light

As we enter this year of mastery, of truth, integrity and innocence, I would like to provide you with a visual of the Seraphim angels as well as a meditation that would assist in connecting with these angelic beings and their energies. It will help you, I hope, to experience the full potential of your being in this coming year.

So make yourself comfortable, play a soft music in the background, light a white candle, and if you have the quintessence of Serapis Bey (aura soma) you could apply this to your forehead and pass it through your aura, rub it on a quartz crystal. You could also use selenite (optimal for the Seraphim!) or a danburite crystal (white topaz or phenacite, white apophyllite or any other white or clear crystal would also be good).

Breathe into your heart and imagine your breath taking you into the innermost, sincere chamber of your heart. From this place then, invoke the energies of the Seraphim in a manner similar to the following:

"Oh Father Mother God, All that Is, radiate forth to me now the light, fire and wisdom of Your Hearts through your wondrous beings, the Seraphim. Send forth these Holy Living Creatures, who like Flames of Light surround your Throne, Guarding the Ark of the Covenant, the sacred creative force of Your Love! Let these wondrous beings, Your Servants, come to me now and surround me ninefold, in the threefold Trinity of your Love! Let them come to me gently and to enter my presence peacefully with the vibrations of wisdom, hope, clarity, integrity and knowledge that You both would wish me to receive at this time. I open my Body, my Heart, and my Mind to receive this Gift of Accelerated Light, that my Body become more whole, my Heart more fulfilled with Your Love, my Mind illuminated by these Divine Rays of Your Love that are embodied in these Beings. I ask this, I beseech it, I mark it and so be it!"

Imagine then these flaming, gentle, clear and powerful Beings of Light, nine in number, surrounding you now with their radiance and their gentle love. Feel with every power of your

imagination the vibrations of Love that flow from them into your body. Imagine and sense clearly the effect of their light shining into every cell of your body. Take time to explore the effects in every part of your body, your feet, legs, hips, torso, arms, hands, throat, face, forehead, skull, etc. Then follow these vibrations into your heart and all of its chambers, imagining the cones of energy in front of your heart and behind, feel between the shoulder blades the effect, imagine the different levels and chambers of your heart being filled with this clarity, radiance, love and accelerated frequency. Feel the integrity and wholeness in your body and your heart. Allow that vibration now to lift into your mind, filling the whole neurological network with radiance and clarity, with the most perfect alignment, balance and light. Imagine this light emanating intelligence

into every cell of your brain, illuminating new layers of energy within your whole mental body, around your physical body and permeating every level of body consciousness in your physical body as the mental bodies within and without are aligned. Now begin to sense and intuit how the Seraphim angels of Light are linking your mind and mental body to the Universal Mind Lattice (s. following page). As you feel this connection, just bask in the radiance that flows to you from this connection, for it is likened to being connected to the 'universal internet' and you can google anything you wish through this connection. Now rest in this energy feeling the effects on all levels. To make this connection regularly would be enough to sustain

you in your personal evolution at this time. It is our nature to quest for more awareness and so it is from this point in the connection onwards that you may ask for more knowledge in certain areas of your life or work. Understand that the knowledge is then transmitted holistically, not just in rational words or concepts, for that would be just partial knowledge, not the whole truth. To accept the impressions and images and symbols that then are transmitted without attachment will greatly assist you in accessing the transmission of awareness that is being sent. As you become adept at receiving and becoming aware of what

Above a hologram of the energies of the Seraphim Angels of Light Fire and Love © 2007 J.Jewall

has been transmitted to you, you can begin to delve into more detailed questions and queries and master the art of communication with these beings of light.

An important aspect of this angelic order is that they are the Guardians of the Ark of the Covenant. What is this Ark? I am sure there are as many answers to this question as there are levels of meaning in our universe. However, I will share with you what my interpretation of this Ark is. For me it is the embodiment of the whole power of creative forces at work in our universe at this time. As creative impulses enter our planet and create new realities, they are focused through a prism of crystalline energies that is the 'ark of the covenant'. From there, it flows into manifestation in our world. It is, thus, no coincidence that one will often hear of the ark of the covenant being moved from sacred place to sacred place in this world. I believe it was once housed in the Temple of Solomon, in the area of Mount Tabor in Israel, in Ankor Wat in Burma, in Macchu Picchu in Peru, in the Great Pyramid in Egypt, and so on. Depending on the 'creation unfolding', the ark is placed strategically on the planet. In many ways, it may not be of great value to know exactly where this ark is, for through its multidimensionality it is also in many places at the same time. I have found it beneficial though, to 'tune into' the ark and receive from its bounty a flow of energy that supports me in my work. That is why I recommend you knowing of it and connecting with it. J.J. Hurtak describes it in the Keys of Enoch as "a geometry of Light wherein god's revelation is made known. The Ark of the testimony equals the 'energy tablets of God's Law' kept in certain key places in the world." Bringing the ark to a place makes that place sacred. Is it not our duty to make all places sacred in this world? Yet, who but us, the Children of God/dess, have the ability to bring this energy to each and every place? So I also see this interaction with the Ark as being a big part of our mission and purpose here at this time in assisting Mother Earth in her transition into a new level of being. I can also say from experience that the process of doing this is "a great initiation into the Ultimate Mystery School" of Mother Earth and the benefits of doing this world go far beyond our wildest imaginings.

In conclusion I would like to include here some passages from the Keys of Enoch on the Seraphim angels, for the language of the Keys presents to us a multi-leveled transmission of information that bypasses the rational mind to instill a wholistic concept of any given phenomenon described.

Above detail from the image of the universal mind lattice from the book 'Sacred Mirrors - The Visionary Art of Alex Grey' isbn 0-89281-314-8

58 Another Order of Light is the Order of the Seraphim who are princely guardian intelligences, controlling the major pictographs monitoring the lower heavens. Through their multiple appearances, the Seraphim work with the external prototypes of consciousness creation, as well as govern the ranks of light intelligence not allocated to the deities.

59 Without receiving the baptism of seeing the Shekinah Light from the Seraphim, Man is not able to come out of this world, pass through the lower firmaments and see all the rulers and all lords and all gods and all the great invisibles of his local universe.

60 Their Command governs myriads of interplanetary governments of intelligence that are connected with specific consciousness zones.

61 The Serpahim open man's eyes to work with the 'Government of Light' which is necessary in the merger of different planetary worlds under a unified 'Wisdom'. This

Meditation to connect with the Seraphim Angels of Light.....continued

“Wisdom” is manifested from the Ancient of Days through the Father, revealed to the newborn creation as the Recent of Days.

62 **Of all the Orders of the Host, the Seraphim have been chosen to manifest the ‘Government of Light’ because they know how to associate the right ‘Wisdom’ with the ‘right planets’ in accordance with the Father’s ‘Master Plan.’**

J.J. Hurtak “Keys of Enoch” p.367-8 (1987 Library of Congress Cat.Card No 76-55939).

In conclusion, I would like to share with you another image of the Seraphim energy that I saw. Perhaps these images may also help you to feel and connect with these angelic beings though I am aware that we each perceive and experience these energies differently, according to our needs and how our creative imagination translates the energies into feelings and pictures. In any case, I wish you a most successful and prosperous year, filled with creativity and the adventure of life in its most beautiful forms. Namaste.

“A seraph (Hebrew plural Seraphim) is one of a class of celestial beings mentioned once in the Hebrew Bible (Tanakh or Old Testament), in Isaiah. Later Jewish imagery perceived them as having human form, and in that way they passed into the ranks of Christian angels. In the Christian Hierarchy of angels, seraphim represent the highest rank of angels..... In medieval Christian neo-Platonic theology, the Seraphim belong to the highest order, or angelic choir, of the hierarchy of angels. They are said to be the caretakers of God’s throne, continuously singing Kadosh, Kadosh, Kadosh, i. e. “holy, holy, holy” — cf “Holy, Holy, Holy is the Lord of Hosts, the whole earth is full of His Glory” (Isaiah 6:3). This chanting is referred to as the Trisagion.” quote from Wikipedia (<http://en.wikipedia.org/wiki/Seraph>). Namaste.

UPCOMING WORKSHOP IN EUROPE

“The Conclave of the 3 Radiant Hearts of the Golden Ages of Lemuria, Atlantis, Egypt”

Metatron joins forces with Sekmet and Ptah as well as the Seraphim Angels of Light to infuse the global grids of consciousness in 2007 with clarity, integrity and the accelerated frequencies of Divine Love. At this event, Metatron shall connect your hearts to the Divine Heart Matrix of Unity with Mother Earth. Then the Immaculate Concept of your Divinity shall be infused into the crystalline frequencies of your emotional body in this Lifetime. In the Trinity of energies, working through Sekmet and Ptah, Metatron shall then infuse the matrix of Twin Flames and Divine Service to Mother Earth and Humanity in the innermost chamber of your hearts. Finally, the Trinity births the Divine Child Heart of the New Golden Age

Metatron has indicated that the original Divine Heart Matrices that were present at the Creation of all the major golden ages of Mother Earth, combined into a Trinity, provide the opportunity to access the next level of Divine Heart Matrices to be embodied on Earth next. He also indicated that for this present shift, the matrices of the Golden Ages of Lemuria, Atlantis and Egypt are of greatest importance. A deeper connection with the Earth and our bodies, a more powerful and clear connection to our souls and the Heavens, as well as a new knowledge of alchemy is a gift we can all benefit from in this times. He explained to me that the time for this activation would be 2007. I am so honored and delighted to be able to present this work at this time, for I am convinced it will clarify and peace to the heart, integrity and fulfillment to your lives.

This workshop will be held in Gloucester England, Germany, Switzerland and Belgium this spring. See the Calendar at the end of the newsletter. If you are interested in hosting this workshop, contact Jhadten.

Some New Products that we want to Introduce!

The full moon in Leo Meditation was awesomewe chose Whizzard and Tarot cards to deepen our understanding of this transition time, the Lion's gateway, and to appreciate the energy of this time, to anchor it in Vancouver and to disseminate it to the world. Again we incorporated as much of the information of Celia Fenn's as possible. The meditation is great, though not a professional one, as it allows you to reconnect with this energy and deepen it. It doesn't matter where you live, you can use it to anchor energies in your area of the world, just visualizing your area instead of Vancouver when it is mentioned. \$10 plus shipping and taxes.

The Tree Meditation was wonderful. We recorded this one at the end of July. We had chosen a card from the Celtic Tree Oracle cards and through connecting with the tree we accessed deeper and more intimate parts of the Earth and our bodies. In so doing, we were able to access higher frequencies of our soul. You don't need to have the tree oracle cards (just visualize a tree and let the first one that come to mind be the right one), or the Whizzard Cards (though we highly recommend you get them!) or the Tarot cards (though most of you would have these). Just be playful and with the intention in your heart to anchor a good energy for the Earth and Mankind, visualize your local area in this meditation. It too is \$10 plus shipping and taxes and it too is not a professional recording but live.

Sacred Journey to Canada July 27-August 13, 2007

The Itinerary

- 1. We will spend a couple of days in Vancouver, visiting sacred sites, doing sacred rituals such as sweat lodge ceremonies with native Indians from the area, preparing for the journey of the "life crystal". Then we will take the train from Vancouver to Banff in the Canadian Rockies, the sacred retreat of Lord Michael. Here we delve deeply through ritual and ceremony into the blueprints of our missions. The strong aboriginal energies here support this vision quest as do the energies of the sacred retreat of Archangel Michael. Then travel by motorcoach from Banff to Lake Louise, Emerald Lake and Jasper, doing ceremonies of integration and cleansing in these places.*
- 2. From Jasper take the train to Prince Rupert and from Prince Rupert take the ferry to the Queen Charlotte Islands. This is a pilgrimage to the sacred retreat of the Great Goddess Spider Woman and to connect with the Haida Gwai first nations peoples. This is a most sacred place and the creative energies here will impress the soul imprints upon you as well as connect you to the eightfold seal of infinity.*
- 3. Fly from Queen Charlotte Islands to Vancouver to complete the first circle.*
- 4. Take a day trip to Harrison Hot Springs to honor, celebrate, anchor and set your clear intent with the Life Crystal. Again a sacred place with powerful energies to infuse into the 'medicine' of your journey. This is Sasquatch country!*
- 5. Take a 3 or 4 day trip to Victoria and from Victoria to Cathedral Grove and Tofino. Vancouver Island is again a very sacred place with deeply mysterious rain forests and places of sacred retreat and ritual. The final infusion into the mystery and energy of the Life Crystal. Return by bus and ferry. Fly Home!*

The price does not include meals and your flight to Canada (although some meals will be included, details upon request): Canadian \$3900 (=approx. €2700, CHF 4300). Please check with your travel agents for cheap flights to Vancouver. When you email or write me that you are interested in coming, then I can help you link up with others flying to Vancouver to help you get a group rate. This trip is filling fast and you are encouraged to sign up as soon as possible. Namaste!
